SCALEACRES

SCALING WITH SYSTEM AND AUTOMATION

BUILT TO STAND OUT. DESIGNED TO SCALE.

CONTENTS

HOW TO USE THIS BOOK

These guidelines keep ScaleAcres recognisable everywhere it appears: website, social, pitch decks, site hoardings and stationery. Start with the logo and colour chapters. Everything else builds on them.

01 · OUR BRAND

WHO WE ARE

ScaleAcres is an independent creative, digital and growth agency where powerful ideas meet thoughtful design, innovative technology and performance-driven marketing, with real estate marketing at its core.

WE DON'T CREATE BRANDS. WE CREATE MARKET LEADERS.

POSITIONING

A real estate marketing & creative growth agency

TAGLINE

Built to stand out. Designed to scale.

LOGO STRAPLINE

Scaling with System and Automation

WHERE WE WORK

Delhi · Agra · Bangalore, serving India, UAE and Saudi Arabia

AMBITIOUS

We set out to make clients the leaders in their market, not just visible in it.

SYSTEMATIC

Creative work runs on process, data and automation, so results can be repeated and scaled.

CREATIVE

Ideas, design and film that people remember, crafted to the standard of the brands we admire.

ACCOUNTABLE

Every campaign is measured. We talk about outcomes, and we show the numbers.

ROYAL GRADIENT

The primary logo pairs the black SCALEACRES wordmark with the S-A building symbol in the royal gradient. The gradient rises from deep royal at the base to sky blue at the top: the brand idea of scaling, drawn into the mark.

Symbol
An S and an A built as a rising tower: ScaleAcres as a building block for growth. The right half carries the gradient.

Wordmark & strapline
SCALEACRES in a condensed, confident uppercase. The strapline "Scaling with System and Automation" follows the same gradient, left to right.

01
DEEP ROYAL AT THE BASE
The foundation: strategy, systems and the work clients do not see.

02
ROYAL THROUGH THE BODY
The brand colour. Confident, trustworthy and unmistakably ScaleAcres.

03
SKY AT THE TOP
Growth and momentum. The direction the brand is always moving in.

03 · LOGO VERSIONS

ONE LOGO, SEVERAL FITS

Use the primary logo wherever you can. Choose another version only when the space, background or production method needs it. Never redraw or rearrange the logo yourself.

Primary
Default for white and light backgrounds.

Reversed
White wordmark for black and navy backgrounds. Symbol in royal → sky, strapline in sky.

Without strapline
For small sizes, where the strapline would be under 6 px tall.

Stacked
For square and portrait formats: social, signage, merchandise.

Symbol
App icons, favicons, social avatars and graphic accents. Only where ScaleAcres is already named.

One colour · Royal
Single-colour print, embroidery, engraving, stamps.

One colour · Black
Black-only print, newspaper, fax and legal documents.

White
On royal, on the gradient, and over photography or video.

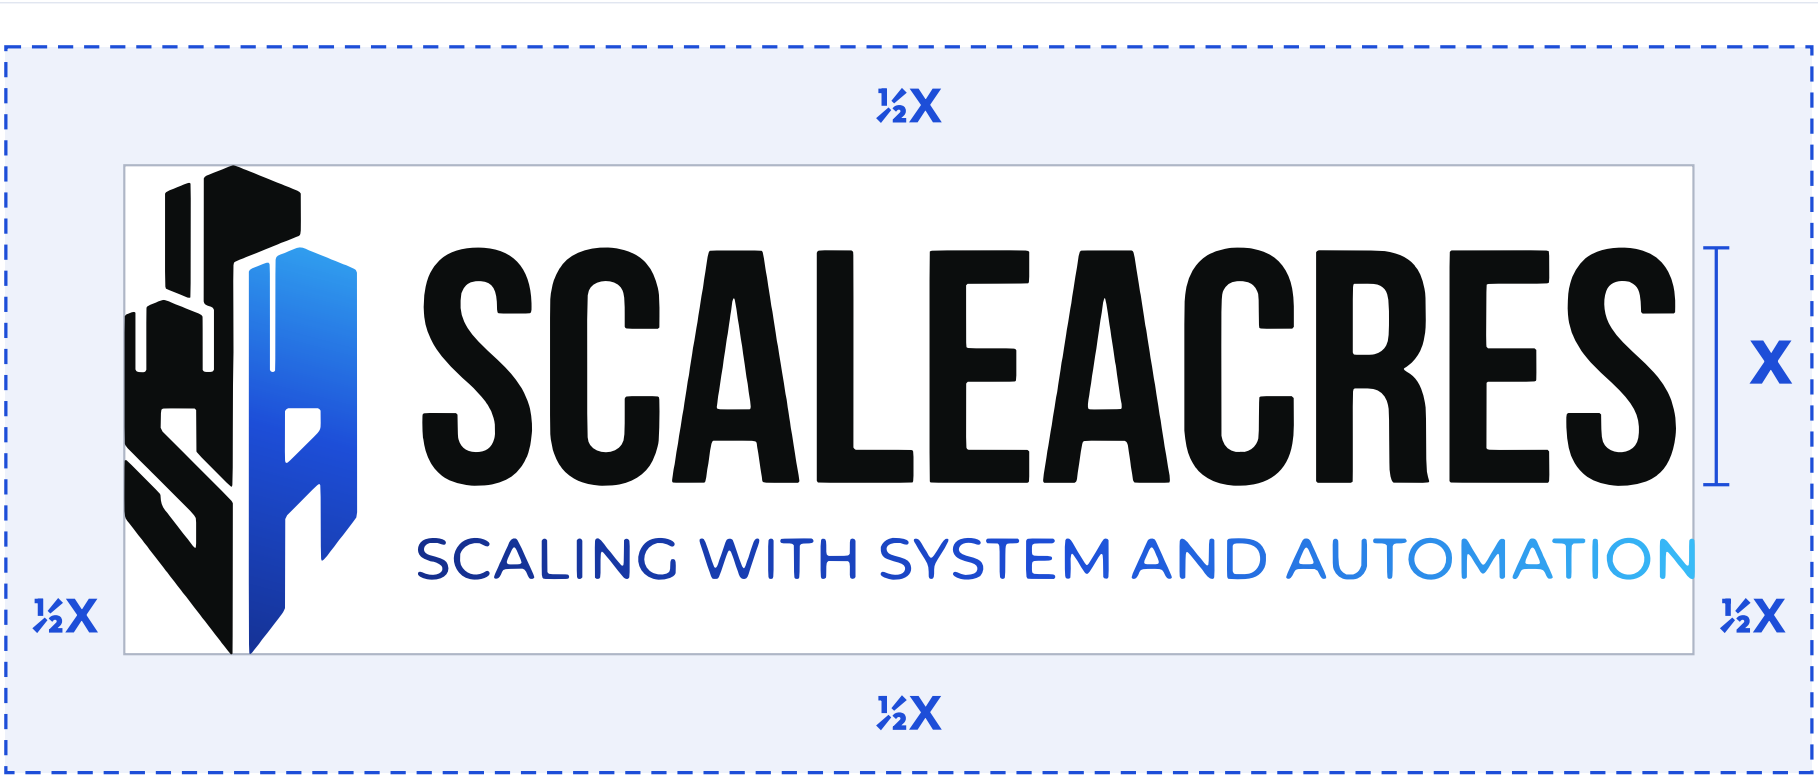

Stacked reversed
Square formats on dark backgrounds.

04 · CLEAR SPACE & MINIMUM SIZE

ROOM TO BREATHE

X is the cap height of SCALEACRES. Keep at least half of X clear on every side of the logo, free of text, edges and other graphics. More space is always better.

Full logo · 240 px / 50 mm
Below this the strapline is no longer legible. Switch to the version without strapline.

Without strapline · 120 px / 25 mm
Smallest size for the wordmark and symbol together.

Symbol · 24 px / 6 mm
16 px is allowed for favicons only.

05 · LOGO ON BACKGROUNDS

ALWAYS ON SOLID GROUND

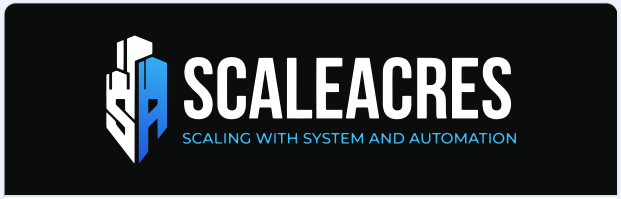

Place the logo on brand colours or calm, even areas of photography. Pick the version that keeps the strongest contrast: full colour on light, reversed on dark, white on royal and on images.

White · Primary
The preferred combination.

Mist · Primary
For tinted sections and documents.

Brand Black · Reversed
Website header, menus, video end cards.

Royal Navy · Reversed
Social posts and presentations.

Royal · White
Never put the gradient logo on royal: the symbol disappears.

Photography · White
Over a calm, dark part of the image, or add a 40–60% black overlay.

06 · LOGO MISUSE

PLEASE DON'T

The logo only works if it looks the same every time. Use the supplied files exactly as they are. If a layout seems to need any of these changes, choose a different logo version instead.

✕ Stretch or squash

Always scale proportionally.

✕ Rotate or skew

The logo always sits horizontally.

✕ Change the colours

Only the approved versions in chapter 03.

✕ Flip the gradient

The gradient always rises: deep royal at the base, sky at the top.

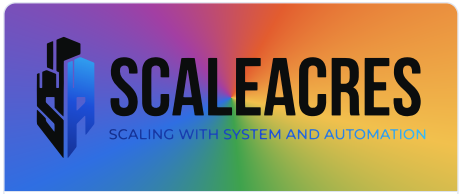

✕ Add effects

No shadows, glows, outlines, bevels or 3D.

✕ Use low contrast

The gradient logo on royal loses its symbol. Use white.

✕ Place on busy backgrounds

Use a calm area or a solid brand colour.

✕ Rearrange the parts

Use only the full, stacked or symbol versions.

07 · COLOUR

ROYAL, FROM DEEP TO SKY

ScaleAcres Royal is the brand colour. Royal Deep and Sky extend it into the signature gradient. Brand Black and White do most of the work around them. That contrast is what makes the blue feel premium.

ScaleAcres Royal
HEX #1D4ED8
RGB 29 78 216
CMYK 87 64 0 15
Primary brand colour: buttons, links, highlights, one-colour logo.

Royal Deep
HEX #142E8C
RGB 20 46 140
CMYK 86 67 0 45
Gradient base, hover states.

Sky
HEX #38BDF8
RGB 56 189 248
CMYK 77 24 0 3
Gradient top. Accents on dark only.

Brand Black
HEX #0B0D0D
RGB 11 13 13
CMYK 60 40 40 100
Wordmark, dark sections, headings.

White
HEX #FFFFFF
RGB 255 255 255
CMYK 0 0 0 0
Main background.

Royal Navy
#0B1640
Alternate dark ground

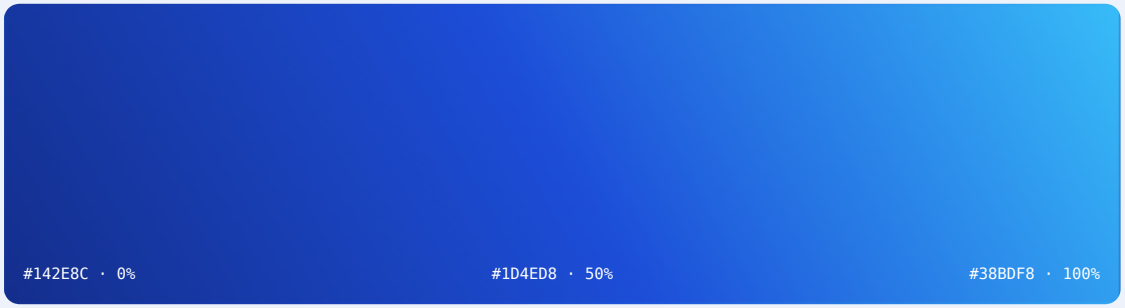

Graphite
#2B3140
Body text on light

Steel
#5F6878
Secondary text, captions

Line
#DDE3EF
Dividers, borders

Mist
#EEF2FB
Tinted sections

CMYK values are starting points for coated stock. Brand Black prints as a rich black. Match Royal, Royal Deep and Sky against a Pantone bridge guide with your printer and approve a press proof before a large run.

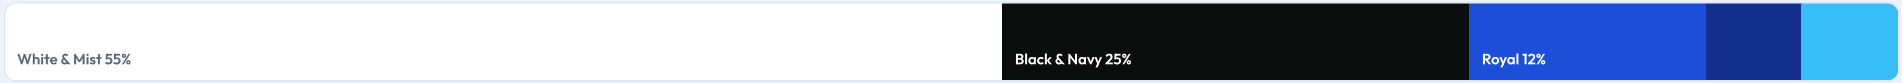

The signature gradient

`linear-gradient(60deg, #142E8C 0%, #1D4ED8 50%, #38BDF8 100%)`

- Always rises: dark at the bottom or left, light at the top or right.
- Use it on the symbol, thin bars and rules, the rising-bars motif and one hero call to action per view.
- Never on body text, small type or large background areas behind the full-colour logo.

Proportion

Accessible combinations

TEXT	ON	SAMPLE	CONTRAST	USE
White	Royal	Let's talk	6.70 : 1 AA	Buttons, labels, banners
Royal	White	View our work →	6.70 : 1 AA	Links, accent headings
Royal	Mist	Real estate	5.98 : 1 AA	Tags on tinted sections
White	Royal Deep	Case study	11.67 : 1 AAA	Hover states, dark cards
Sky	Brand Black	Measurable growth.	9.10 : 1 AAA	Accents on dark sections
Sky	Royal Navy	Designed to scale.	8.15 : 1 AAA	Social posts, slides
Graphite	White	Body copy	12.99 : 1 AAA	Running text
Steel	White	Caption text	5.62 : 1 AA	Captions, metadata
Sky	White	Never as text	2.14 : 1 Fails	Graphics only on light backgrounds

OUTFIT, ONE FAMILY

Outfit is the brand typeface for headlines, body and UI. It is free on Google Fonts. Headlines are set heavy, uppercase and tight; body text is regular, sentence case and generous. The logo's lettering is artwork: never retype it.

Regular — body copy	400
SemiBold — labels & buttons	600
EXTRABOLD — HEADLINES	800
BLACK — DISPLAY	900

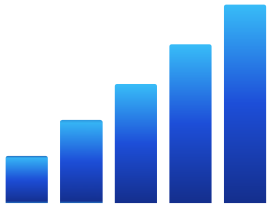

DISPLAY	**BUILT TO STAND OUT.**	48–124 px · 900 · −4%
HEADING 2	**OUR WORK. OUR SIGNATURE.**	40–90 px · 800 · −3.5%
HEADING 3	**Performance marketing**	28–48 px · 700 · −2%
LEAD	From the way a brand looks to the way it performs.	18–24 px · 400 · 150%
BODY	We combine creative thinking, technology and marketing to make every interaction matter.	16–20 px · 400 · 160–170%
LABEL	REAL ESTATE MARKETING	12–14 px · 600 · +18%

- Highlight one phrase per headline in Royal (or Sky on dark). Never more than one.
- Keep body lines around 60–75 characters. Left-align text; centre only short display lines.
- If Outfit is unavailable (for example in Office documents), use Arial for body text and Arial Black for headlines.

09 · GRAPHIC LANGUAGE & UI

RISING BARS, CLEAN LINES

The graphic language comes straight from the symbol: vertical forms that rise in steps, carrying the gradient. Use it sparingly, once per layout, so it stays a signature rather than a pattern.

Rising bars
Five bars, rising left to right, each one step taller. Gradient runs bottom to top. Anchor them to an edge of the layout.

SECTION EYEBROW

REAL ESTATE BRANDING PERFORMANCE

Rules, eyebrows and tags
A short gradient rule introduces every section label. Tags are outlined pills in uppercase.

Buttons

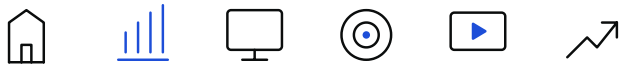

LET'S TALK ↗ START A PROJECT ↗ VIEW OUR WORK

On light
Primary is solid Royal. Use the gradient button for the single most important action on a page.

LET'S TALK ↗ VIEW OUR WORK EXPLORE ↗

On dark
Royal or White as primary. Sky is reserved for small accent buttons.

Iconography

2 px line icons, rounded joins
Draw on a 56 px grid. Black or Graphite, with one detail in Royal at most.

10 · IMAGERY

REAL WORK, REAL PLACES

Our pictures show architecture, the people who make the work, and the work itself. Grade images cool and clean, with deep shadows and crisp whites. That way photography sits naturally next to Royal and Black.

Architecture

Projects at blue hour, strong verticals, clean geometry. Echoes the rising symbol.

Studio & team

Real people at work: screens, shoots, strategy sessions. Natural, unposed.

The work

Websites, ads and films shown in context, on devices and at full quality.

Data & growth

Dashboards and results, simplified and graded into the brand palette.

Do

- Use ScaleAcres' own projects, clients' approved creatives and real team photography.
- Keep images sharp, high resolution and in their original aspect ratio.
- Leave a calm area for the logo and headline.

Avoid

- Generic stock: handshakes, pointing at whiteboards, staged laughter.
- Warm sepia filters, heavy HDR and oversaturated skies.
- Fake mock-ups of work that does not exist.

11 · VOICE & TONE

CONFIDENT, CLEAR, MEASURABLE

We sound like a senior partner who has done this many times: direct, warm and specific. Short lines. Real outcomes. No jargon that a property developer or a founder would have to look up.

Confident, not loud
State what we do and what it achieves. Let results carry the weight.

Clear, not clever
Plain words over buzzwords. One idea per sentence.

Systematic
Explain the process: how we plan, build, launch and improve.

Human
Talk to people, not "stakeholders". Use "we" and "you".

SOME BRANDS GET NOTICED. WE MAKE THEM MATTER.

CREATIVE THINKING. MEASURABLE GROWTH.

WE WRITE	NOT
Big ideas. Built into action.	~~We leverage synergistic, best-in-class creative solutions.~~
More qualified leads for your project, at a lower cost per lead.	~~Unlock unprecedented ROI with our revolutionary funnel.~~
Let's talk about your next launch.	~~Kindly revert at the earliest for further discussion.~~
