SCALEACRES · COLOUR EXPLORATION · NOT APPROVED

TWO COLOUR DIRECTIONS, ONE REAL WEBSITE.

Both options re-map the same design tokens across the live layout: every section, hover, divider, menu and CTA. Content, section order, video, SEO and links are untouched. The approved black-and-blue baseline stays the default and is the only version that can appear on scaleacres.com.

Option 1 — Red Dash Inspired

PREVIEW FULL HOMEPAGE
Option 2 — ScaleAcres Midnight Electric

1. Open any preview above, or use the **Preview** bar at the bottom of every page to switch instantly. The video keeps playing.

2. Logo: Official / Proposal shows the recoloured logo proposal for that option. Official is the default.

3. Direct links: `/?theme=reddash`, `/?theme=midnight`, `/?theme=baseline`, add `&logo=proposal`.

4. The choice is remembered per browser; it is ignored on scaleacres.com.

OPTION 1

RED DASH INSPIRED

High-voltage creative-agency energy. Stark black and white rhythm, Creative Red used as decisive punctuation (rules, numerals, hover sweeps) and one full-red closing band. Poster-like square CTAs.

Raw accent on white (not used for text) `#E32629 on #FFFFFF`	Aa Text	4.59:1	AA

OPTION 2

SCALEACRES MIDNIGHT ELECTRIC

International premium: deep navy depth with a cool light source, ice-white daylight sections, Electric Cyan as light rather than paint. Sits in the same blue family as the official logo, so the real logo works unchanged.

SIDE BY SIDE

	OPTION 1 · RED DASH INSPIRED	OPTION 2 · MIDNIGHT ELECTRIC
Personality	Loud, confident, creative-agency attitude	Calm authority: premium, international, technical
Fit with the official logo	Clashes with the blue symbol unless the logo is recoloured (a brand change)	Same blue family; the official logo works unchanged
Real estate audience	Red reads as urgency/offer in property advertising	Navy and cyan read as trust, architecture and technology
Distinctiveness	Close to the reference agency's identity; risk of looking derivative	Original to ScaleAcres; uncommon among Indian agencies
Accessibility	Red needs a deeper shade for text on white (#C8191C) and a brighter one for text on black (#F2383B)	Cyan is excellent on navy (9.5:1); deep cyan used on light grounds
Photography and video	Strong with high-contrast black footage; competes with warm interiors	Complements blue-hour architecture and the Higgsfield showreel grade

Baseline for reference: Brand Black #0B0D0D · Brand Blue #1CA6DC · White #FFFFFF · Off-White #F4F5F7.

RECOMMENDATION

OPTION 2: MIDNIGHT ELECTRIC

It keeps the logo you already own. Electric Cyan sits beside the official blue symbol, so no logo change is needed. Option 1 only looks resolved with a recoloured logo, which is a brand change, not a website change.

It is unmistakably ScaleAcres. Option 1 is deliberately close to the Red Dash reference; for an agency whose product is originality, that resemblance is a reputational risk.

It suits the buyers you market to. Navy and cyan signal trust, architecture and technology. Red is the colour of offers and urgency in property advertising.

It is the more accessible system. Accent on dark scores 9.5:1. Red needs three shades to stay compliant across grounds.

Keep Option 1's best idea: the bold, full-bleed closing band. It can be carried into Midnight Electric in cyan if you want more energy. Nothing is applied until you choose; the approved baseline remains live.
